ADMINISTRATOR CIVIC ACTIVITIES

The board encourages the administrators to be involved in the school district community by belonging to community organizations and by attending and participating in school district community activities.

It shall be the responsibility of the administrators to become involved in school district community activities and events. The board may include a lump sum amount as part of the administrator’s compensation to be used specifically for paying the annual fees of the administrator for school district community activities and events if, in the board’s judgment, the administrator’s participation will further the public purpose of promoting and deriving support of the school district and public education in general. It shall be within the discretion of the board to pay annual fees for professional organizations and activities.
ADMINISTRATOR CONSULTING/OUTSIDE EMPLOYMENT

An administrative position is considered full-time employment. The board expects administrators to give the responsibilities of their positions in the school district precedence over other employment. An administrator may accept consulting or outside employment for pay as long as, in the judgment of the board and the superintendent, the work is conducted on the administrator’s personal time and it does not interfere with the performance of the administrative duties contracted by the board.

The board reserves the right, however, to request the administrator cease the outside employment as a condition of continued employment. The board shall give the administrator thirty (30) days notice to cease outside employment.
REDUCTION IN ADMINISTRATIVE POSITIONS

The board shall have the discretion to determine the appropriate number of administrative personnel.

When considering a reduction in administrative personnel, the board shall consider the number of students to be enrolled, the condition of the facilities, the economic condition of the school district, the reassignment of duties among other administrative personnel, and other factors deemed relevant by the board.

The board shall consider the relative skills, ability, competence, experience, effectiveness, and qualifications of the administrators to do the available work, as well as other factors deemed relevant by the board in making reductions of administrative personnel.
DEVELOPMENT AND ENFORCEMENT OF ADMINISTRATIVE REGULATIONS

Administrative regulations may be necessary to implement board policy. It shall be the responsibility of the superintendent to develop administrative regulations.

In developing the administrative regulations, the superintendent may consult with the administrators or others likely to be affected by the regulations. Once the regulations are developed, school district personnel, students and other members of the school district community shall be informed in a manner determined by the superintendent.

The board shall be kept informed of the administrative regulations utilized and their revisions. The board may review and recommend change of administrative regulations prior to their use in the school district if they are, in the board's judgment, contrary to the intent of board policy.

It shall be the responsibility of the superintendent to enforce the administrative regulations in an appropriate manner for the situation.
MONITORING OF ADMINISTRATIVE REGULATIONS

The administrative regulations shall be monitored, and revised when necessary. It shall be the responsibility of the superintendent to monitor and revise the school district's administrative regulations.

The superintendent, in addition to the superintendent's own knowledge, may rely on the board, the administrators, school district personnel, students, and other members of the school district community to inform the superintendent about the effect of and possible changes in the administrative regulations.
ADMINISTRATION IN THE ABSENCE OF POLICY

When there is no board policy in existence to provide guidance on a matter before the administration, the superintendent shall have the authority to exercise discretion, based on the circumstances surrounding the situation.
ADMINISTRATOR CODE OF ETHICS

Administrators, as part of the educational leadership in the school district community, represent the views of the school district. Their actions, verbal and nonverbal, reflect the attitude and the beliefs of the school district. Therefore, administrators shall conduct themselves professionally and in a manner fitting to their position at all times.

Each administrator shall follow the code of ethics stated in this policy. Failure to act in accordance with this code of ethics or in a professional manner, in the judgment of the board, shall be grounds for discipline and, possibly, for dismissal.

The professional school administrator:

1. Upholds constantly the honor and dignity of the profession in actions and relations with pupils, colleagues, school board members and the public;

2. Obeys local, state and national laws; holds to high ethical and moral standards, and gives loyalty to this country and to the cause of democracy and liberty;

3. Accepts the responsibility to master and to contribute to the growing body of specialized knowledge, concepts and skills which characterize school administration as a profession;

4. Strives to provide the finest possible educational experiences and opportunities to the members of the school district community;

5. Seeks to preserve and enhance the prestige and status of the profession when applying for a position or entering into contractual agreements;

6. Carries out in good faith the policies duly adopted by the local board and the regulations of state authorities and renders professional service;

7. Disallows consideration of private gain or personal economic interest to affect the discharge of professional responsibilities;

8. Recognizes the public schools are the public's business and seeks to keep the public informed about their schools; and

9. Supports and practices the administrative team concept.

Approved 7/1/93 Reviewed 6/13/11 Revised 2/9/98
SUCCESSION OF AUTHORITY TO THE SUPERINTENDENT

In the absence of the superintendent, it shall be the responsibility of the other administrators to assume the superintendent's duties. The succession of authority to the superintendent shall be determined by the administrative team.

If the absence of the superintendent is temporary, the successor shall assume only those duties and responsibilities of the superintendent that require immediate action. If the absence of the superintendent will be a lengthy one, as determined by the board, the board shall appoint an acting superintendent to immediately assume the responsibilities of the superintendent.

It is the responsibility of the superintendent to inform the successor of the superintendent's absence, if possible. If the superintendent is unable to inform the successor, it shall be the responsibility of the successor to assume the superintendent's duties, in accordance with this policy statement, when the successor learns of the absence and its length.

References to "superintendent" in this policy manual shall mean the "superintendent or the superintendent's designee" unless otherwise stated in the board policy.
AUTHORITY AND COMMUNICATION CHANNELS

Questions and problems shall be resolved at the lowest organizational level nearest to the complaint. School district personnel shall be responsible to confer with their immediate supervisor on questions and problems for resolution. Students and other members of the district community shall confer with a member of certificated personnel and then with the building principal on questions and problems for resolution.

If resolution is not possible by any of the above, individuals may bring it to the attention of the superintendent within ten (10) days of their discussion with the building principal. If the superintendent is the employee's immediate supervisor and if there is no resolution or plan for resolution by the superintendent within ten (10) days of the individual's discussion with the superintendent, the individual may ask to have the question or problem placed on the board agenda. The action of the board will be final.

It shall be the responsibility of the administrators to resolve questions and problems raised by the school district personnel and students they supervise and by other members of the district community.

Approved 7/1/93 Reviewed 6/13/11 Revised 2/9/98
This agreement made and entered into by and between Simpson College and ADM Community Schools.

It is agreed that:

1. Simpson College and said school district or center will cooperate in the development of pre-school through secondary student teaching and practicum experience in said school district/center during the academic year 2011-2012.

2. All assignments for student teaching are to be approved by the principal or director of the educational unit involved and the respective mentoring teacher. Districts will select mentors based on the following criteria:
   a) Mentors are fully licensed at the appropriate level, and when possible, they are licensed in all of the endorsement areas of the student teaching assignment.
   b) Mentors have a minimum of two years, and preferably three years, of successful teaching.
   c) Mentors are identified by the district as "master" teachers.
   d) Mentors provide experiences that are consistent with the Education Department's Philosophy and Goals (see initial placement request letter).

3. A full student teaching assignment shall consist of a full day assignment for approximately fourteen weeks. Some assignments may be split according to endorsement areas. "Full day" is defined as the equivalent of teacher contract hours for said district/center.

4. Simpson College and those students selected to be student teachers and practicum students are not employees of the school district/center. The student teacher or practicum student is obligated to comply with the policies, rules, and regulations governing the school district/center. The school district/center handbook shall be available to the student teacher or practicum student. The school district/center shall have no responsibility for withholding taxes, social security, unemployment, workers compensation, and other taxes associated with the Simpson College Student Teaching or practicum program. It is understood that Simpson College and its student teachers or practicum students are independent contractors.

5. Either party has the right to terminate or alter any student teacher placement, at any time. The Simpson College Education Department and the school district/center shall consult with each other prior to any termination.

6. Simpson College shall pay $10.00 per week to the district/center for each student teaching assignment. In the event that an assignment is terminated prior to the mid-point of the student teaching period, the payment shall be $10.00 per week; otherwise, the full amount shall be paid. There is no remuneration for practicum placements.

7. Within 10 days after completion of the student teaching semester, the district/center shall be reimbursed for all teaching assignments within the district/center.

8. Student teachers adhere to the school district's/or center's schedule. Student teachers are not released from district/center responsibilities on days when the college is not in session. (With the exception of required seminar attendance.)

9. The mentoring teacher of the participating school district/center will review the procedures as outlined in the Simpson College Student Teacher Handbook, confer with the Simpson College supervisor, and complete the mid- and end of assignment evaluation forms.

10. A member of the Simpson College faculty will supervise each student teacher, confer with the mentoring teacher, and observe the student teacher a minimum of seven times for each full assignment of student teaching. (Three to four times for a shorter placement.)

11. Simpson College student teachers, in accordance with the Code of Iowa, are not permitted to serve as substitute teachers. Student teachers must be supervised by licensed teachers.

12. The school district/center shall be held harmless for any third-party claim resulting from actions of the student teachers not at the direction of the school district/center.

2011 Iowa AP Index

Dear Principal Lee Griebel:

The University of Iowa’s Belin-Blank Center is pleased to release the results of the 2011 Iowa AP Index. The AP Index is a ratio that helps determine the extent of Advanced Placement opportunity at a school. AP is just one indicator, but it is an important indicator, of the challenges schools provide for high ability students.

Your 2011 Iowa AP Index (based on 2010 AP exam and graduation data) is 0.39. For comparison, your Index for last year (2010 Index, based on 2009 exam and graduation data) was 0.39.

Iowa’s Senior Year Plus program (Iowa Code 261E) “compels all school districts to make AP courses available to students” (Iowa Department of Education, 2009). We congratulate you for offering AP courses to your students and we encourage you to continue this as an important opportunity for your students. The Belin-Blank Center is available to help you increase your AP opportunities.

The Belin-Blank Center makes public the names of only the top 50 schools on the Iowa AP Index. To see the Top 50 rankings and for an explanation of the Iowa AP Index, please visit www.iowaapindex.org. The names of the high schools not in the top 50 will not be published on our website. The AP Index scores and names of high schools not in the top 50 will be kept confidential to the extent permitted by law, but please note that the University, as a state entity, may be obligated to disclose this information in the event of a public records request.

If you have any further questions please do not hesitate to contact me by phone (319-335-6148) or by email (nick-colangelo@uiowa.edu).

Sincerely,

Nicholas Colangelo, Director

Where the Index is the same for multiple schools, this is due to rounding. The Index was taken out to more decimal places in order to determine the rankings in very close ratios.
