INSTRUCTIONAL MATERIALS SELECTION

The board has sole discretion to approve instructional materials for the school district. This authority is delegated to licensed employees to determine which instructional materials, other than textbooks, will be utilized by and purchased by the school district.

In reviewing current instructional materials for continued use and in selecting additional instructional materials, licensed employees will consider the current and future needs of the school district as well as the changes and the trends in education and society. It is the responsibility of the superintendent to report to the board the action taken by the licensed employees.

In the case of textbooks, the board shall make the final decision after receiving a recommendation from the superintendent. The criteria stated above for selection of other instructional materials will apply to the selection of textbooks. The superintendent may develop another means for the selection of textbooks. Textbooks are reviewed as needed and at least every six years.

Educational materials given to the school district must meet the criteria established above. The gift must be received in compliance with board policy.

ADEL DESOTO MINBURN COMMUNITY SCHOOL DISTRICT BOARD OF DIRECTORS
I. Responsibility for Selection of Instructional Materials

A. The board is responsible for matters relating to the operation of the Adel DeSoto Minburn Community School District.

B. The responsibility for the selection of instructional materials is delegated to the professionally trained and licensed employees of the school system. For the purpose of this rule the term "instructional materials" includes printed and multimedia materials (not equipment), whether considered text materials or library materials. The board retains the final authority for the approval of textbooks.

C. While selection of materials may involve many people including principals, teacher-librarians, students, parents and community members, the responsibility for coordinating the selection of most instructional materials and making the recommendation for the purchase rests with licensed employees.

D. Responsibility for coordinating the selection of text materials for distribution to classes will rest with the licensed employees, principal and superintendent. For the purpose of this rule the term 'text materials' includes textbooks and other printed and non-printed material provided in multiple copies for use of a total class or major segment of a class.

E. If the board appoints an ad hoc committee to make recommendations on the selection of instructional materials, the ad hoc committee is formed and appointed in compliance with the board policy on Ad Hoc Committees.

1. The superintendent will inform the committee as to their role and responsibility in the process.

2. The following statement is given to the ad hoc committee members:

   *Bear in mind the principles of the freedom to learn and to read and base your decision on these broad principles rather than on defense of individual materials. Freedom of inquiry is vital to education in a democracy.*

   *Study thoroughly all materials referred to you and read available reviews. The general acceptance of the materials should be checked by consulting standard evaluation aids and local holdings in other schools.*
SELECTION OF INSTRUCTIONAL MATERIALS

Passages or parts should not be pulled out of context. The values and faults should be weighed against each other and the opinions based on the material as a whole.

The principal will present your report, presenting both majority and minority opinions, to the complainant at the conclusion of our discussion of the questioned material.

II. Material selected for use in libraries and classrooms will meet the following guidelines:

A. Religion - Material will represent the major religions in a factual, unbiased manner. The primary source material of the major religions is considered appropriate, but material that advocates rather than informs, or is designed to sway reader judgment regarding religion, will not be included in the school libraries or classrooms.

B. Racism - Material will present a diversity of race, custom, culture, and belief as a positive aspect of the nation's heritage and give candid treatment to unresolved intercultural problems, including those that involve prejudice, discrimination, and the undesirable consequences of withholding rights, freedom, or respect of an individual.

C. Sexism - Material will reflect sensitivity to the needs, rights, traits and aspirations of men and women without preference or bias.

D. Age - Material will recognize the diverse contributions of various age groups and portray the continuing contributions of maturing members of society.

E. Ideology - Material will present basic primary and factual information on an ideology or philosophy of government that exerts or has exerted a strong force, either favorably or unfavorably, over civilization or society, past or present. This material will not be selected with the intention to sway reader judgment and is related to the maturity level of the intended audience.

F. Profanity and Sex - Material is subjected to a test of literary merit and reality by the teacher-librarians and licensed staff who will take into consideration their reading of public and community standards of morality.

G. Controversial issues materials will be directed toward maintaining a balanced collection representing various views.

The selection decision should be made on the basis of whether the material presents an accurate representation of society and culture, whether the circumstances depicted are...

realistically portrayed, or whether the material has literary or social value when the material is viewed as a whole.

These guidelines will not be construed in such a manner as to preclude materials that accurately represent the customs, morals, manners, culture, or society of a different time or a different place.

III. Procedure for Selection

ADEL DESOTO MINBURN COMMUNITY SCHOOL DISTRICT BOARD OF DIRECTORS
OBJECTION TO INSTRUCTIONAL MATERIALS

Members of the school district community may object to the instructional materials utilized in the school district and ask for their use to be reconsidered.

It shall be the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations for reconsideration of instructional materials.
REVIEW OF INSTRUCTIONAL MATERIALS REGULATION

A. A member of the school district community may raise an objection to instructional materials used in the school district’s education program despite the fact that the individuals selecting such material were duly qualified to make the selection and followed the proper procedure and observed the criteria for selecting such material.

1. The school official or employee receiving a complaint regarding instructional materials will try to resolve the issue informally. The materials generally will remain in use pending the outcome of the review procedure.

   a. The school official or employee initially receiving a complaint will explain to the individual the board’s selection procedure, criteria to be met by the instructional materials, and qualifications of those persons selecting the material.

   b. The school official or employee initially receiving a complaint will explain to the individual the role of the objected material in the education program, its intended educational purpose, and additional information regarding its use. In the alternative, the employee may refer the individual to the teacher-librarian who can identify and explain the use of the material.

2. The employee receiving the initial complaint will advise the building principal of the initial contact no later than the end of the school day following the discussion with the individual, whether or not the individual has been satisfied by the initial contact. The principal in charge of the attendance center maintains a written record of the contact. Each building principal shall inform employees of their obligation to report complaints.

3. In the event the individual making an objection to instructional materials is not satisfied with the initial explanation, the individual is referred to the principal or to the teacher-librarian of the attendance center. If, after consultation with the principal or teacher-librarian, the individual desires to file a formal complaint, the principal or teacher-librarian will assist in filling out a Review Request Form in full and filing it with the superintendent.

B. Request for Review

1. A member of the school district community may formally challenge instructional materials on the basis of appropriateness used in the school district’s education program. This procedure is for the purpose of considering the opinions of those persons in the school district and the community who are not directly involved in the selection process.
RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

2. Each attendance center and the school district’s central administrative office will keep on hand and make available **Review Request Forms**. Formal objections to instructional materials must be made on this form.

3. The individual will state the specific reason the instructional material is being challenged. The **Review Request Form** is signed by the individual and filed with the superintendent.

4. The superintendent will promptly file the objection with the review committee for re-evaluation.

5. Generally, access to challenged instructional material will not be restricted during the reconsideration process. However, in unusual circumstances, the instructional material may be removed temporarily by following the provisions of Section B.6.d. of this rule.

6. The **Review Committee**
   a. The review committee is made up of eight members.
      (1) One licensed employee designated annually, as needed, by the superintendent.
      (2) One teacher-librarian designated annually by the superintendent.
      (3) One member of the administrative team designated annually by the superintendent.
      (4) Three members of the community appointed annually, as needed, by the board.
      (5) Two high school students, selected annually by the high school principal.
   b. The committee will select their chairperson and secretary.
   c. The committee will meet at the request of the superintendent.
   d. Special meetings may be called by the board to consider temporary removal of materials in unusual circumstances. A recommendation for temporary removal will require a two-thirds vote of the committee.
   e. Notice of committee meetings is made public through appropriate publications and other communications methods.
   f. The committee will receive the completed **Review Request Form** from the superintendent.
RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

The committee will determine its agenda for the first meeting that may include the following:
RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

(1) Distribution of copies of the completed Review Request Form.
(2) An opportunity for the individual or a group spokesperson to talk about or expand on the Review Request Form.
(3) Distribution of reputable, professionally prepared reviews of the challenged instructional material if available.
(4) Distribution of copies of the challenged instructional material as available.

h. The committee may review the selection process for the challenged instructional material and may, to its satisfaction, determine that the challenge is without merit and dismiss the challenge. The committee will notify the individual and the superintendent of its action.

i. At a subsequent meeting, if held, interested persons, including the individual filing the challenge, may have the opportunity to share their views. The committee may request that individuals with special knowledge be present to give information to the committee.

j. The individual filing the challenge is kept informed by the review committee secretary on the status of the Review Request Form throughout the reconsideration process. The individual filing the challenge and known interested parties is given appropriate notice of meetings.

k. At the second or a subsequent meeting the committee will make its final recommendation. The committee's final recommendation may be to take no removal action, to remove the challenged material from the school environment, or to limit the educational use of the challenged material. The sole criterion for the final recommendation is the appropriateness of the material for its intended educational use. The written final recommendation and its justification are forwarded to the board, the individual and the appropriate attendance centers. The superintendent may also make a recommendation but if so, it should be independent from the committee's.

Following the superintendent's decision with respect to the committee's recommendation, the individual or the chairperson of the reconsideration committee may appeal the decision to the board for review. Such appeal must be presented to the superintendent in writing within five days following the announcement of the superintendent's decision. The board will promptly determine whether to hear the appeal.
RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

l. A recommendation to sustain a challenge will not be interpreted as a judgment of irresponsibility on the part of the individuals involved in the original selection or use of the material.

m. Requests to review materials that have previously been reviewed by the committee must receive approval of two-thirds of the committee members before the materials will again be reviewed.

n. If necessary or appropriate in the judgment of the committee, the committee may appoint a subcommittee of members or nonmembers to consolidate challenges and to make recommendations to the full committee. The composition of this subcommittee will approximate the representation of the full committee.

o. Committee members directly associated with the selection, use, or challenger of the challenged material are excused from the committee during the deliberation of the challenged instructional materials. The superintendent may appoint a temporary replacement for the excused committee member, but the replacement must be of the same general qualifications as the member excused.

p. Persons dissatisfied with the decision of the board may appeal to the Iowa Board of Education pursuant to state law.

Approved 11/12/07  Reviewed 11/12/07  Revised 11/12/07
INSTRUCTIONS TO THE REVIEW COMMITTEE

The policy of this school district related to selection of learning materials states that any member of the school district community may formally challenge instructional materials used in the district's education program. This policy allows those persons in the school and the community who are not directly involved in the selection of materials to make their own opinions known. The task of the review committee is to provide an open forum for discussion of challenged materials and to make an informed recommendation on the challenge. The meetings of the committee may be subject to the open meetings law.

The most critical component of the reconsideration process is the establishment and maintenance of the committee's credibility in the community. For this purpose, the committee is composed of community members. The community should not, therefore, infer that the committee is biased or is obligated to uphold prior professional decisions. For this same reason, a community member will be selected to chair the committee.

The review process, the task of this committee, is just one part of the selection continuum. Material is purchased to meet a need. It is reviewed and examined, if possible, prior to purchase. It is periodically re-evaluated through updating, discarding, or re-examination. The committee must be ready to acknowledge that an error in selection may have been made despite this process. Librarians and school employees regularly read great numbers of reviews in the selection process, and occasional errors are possible.

In reconsidering challenged materials, the role of the committee, and particularly the chairperson, is to produce a climate for disagreement. The committee should begin by finding items of agreement, keeping in mind that the larger the group participating, the greater the amount of information available and, therefore, the greater the number of possible approaches to the problem.

If the complainant chooses, the complainant may make an oral presentation to the committee to expand and elaborate on the complaint. The committee will listen to the complainant, to those with special knowledge, and any other interested persons. In these discussions, the committee should be aware of relevant social pressures that are affecting the situation. Individuals who may try to dominate or impose a decision must not be allowed to do so. Minority viewpoints expressed by groups or individuals must be heard, and observers must be made to feel welcome. It is important that the committee create a calm, nonvolatile environment in which to deal with a potentially volatile situation. To this end, the complainant will be kept informed of the progress of the complaint.
INSTRUCTIONS TO THE RECONSIDERATION COMMITTEE

The committee will listen to the views of all interested persons before making recommendations. In deliberating its recommendation, the committee should remember that the school system must be responsive to the needs, tastes, and opinions of the community it serves. Therefore, the committee must distinguish between broad community sentiment and attempts to impose personal standards. The deliberations should concentrate on the appropriateness of the material. The question to be answered by the committee is, "Is the material appropriate for its designated audience at this time?"

The committee's final recommendation will be (1) to remove the challenged material from the total school environment, (2) to take no removal action, or (3) to agree on a limitation of the educational use of the materials.

The committee chairperson will instruct the secretary to convey the committee's recommendation to the office of the superintendent. The recommendation should detail the rationale on which it was based. A letter will be sent to the complainant outlining the outcome.
